Currently in the fundraising stages, construction on the Education Center is expected to start in 2018. Once the center is open in 2020, the photos will be part of a two-story digital display. All current conflict KIA since 9/11 will also be displayed for a time. In March 2014, NNA gave it's support for the project by communicating the need to find the missing photos to newspaper members and state press associations.
